Good afternoon Jarrod,

I hope you are having a great Friday. I appreciate your time and the resources you shared as am compiling our AI in Career Development Project. Your insights and knowledge of AI and its nuances are extremely helpful. I look forward to working with you more on this topic.

I discussed your idea to create a "Career Coach Chat Bot" with our director Dr. Terri Carr, also included on this email, and we would like to further explore how we can make this happen! It would be a fantastic tool for our students AND a great experiential learning opportunity for your course.

Do you have availability next Thursday between 9-noon for an in-person meeting? If that day/ timeframe does not work, we can find look at some alternatives. Thanks in advance, Jarrod. Have a great weekend.

Best,
Alyson
