FA24 AI in Business Survey Results.pdf;

Hello Jarrod!

Zach and I pulled together the survey results from the *AI in Business* session on 10/16. Attached are the results. Highlights include:

	Fall 2024
Response Rate	90%
Average rating out of 10	9.8
Net Promoter Score	100%

Overall, the results for the fall session are incredibly positive! When looking at the matrix questions (Q2), the responses strongly lean towards the “strongly agree” end of the scale which is the goal. We received many positive comments praising the session which show the group greatly enjoyed it. We received a few constructive comments we can keep in mind for next time.

Thanks for leading the session, and I look forward to the next one!

Thanks,
Layne
